PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/572,793	Applicant(s) KUROKI, YOSHIHIKO	
	Examiner INSA SADIO	Art Unit 2629	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 August 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,2,8-10,16-18,24-26 and 32 is/are pending in the application.
- 4a) Of the above claim(s) 3-7,11-15,19-23 and 27-31 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1, 2, 8-10, 16-18, 24-26, 32 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Response to Amendment

1. The amendments to claims 1, 2, 8-10, 16-18, 24-26, 32 filed on 8/28/2009 have been entered and considered by examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 1, 8, 17 and 24** are rejected under 35 U.S.C. 102(b) as being anticipated by Itoh et al. (US Publication Number 2002/0015104), hereinafter referenced as Itoh.

As of claims 1, 8, 17, and 24, Itoh discloses an image processing system and method, and image display system. Further, Itoh teaches A display apparatus for presenting a moving image with less perceivable degradation, characterized by comprising: display control means for controlling display to cause display means to display a the moving image by recognizing content to be displayed as computer graphics and then causing the display means to display the moving image at a determined frame rate of 350 or 360 frames/sec (see [0068], [0076], [0130], fig. 7); and the display means for displaying the moving image at the determined frame rate on the basis of control of the display control means, in which a display of each pixel on a screen is maintained during each frame period (see [0068], [0076], [0130], fig. 7).

Art Unit: 2629

As of claims 9, 16, 25 and 32, claims 9, 16, 25 and 32 are rejected the same as claim 1. Only claims 9, 16, 25 and 32 are method claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. **Claims 2, 10, 18, and 26** are rejected under 35 U.S.C. 103(a) as being unpatentable over Itoh in view of Ben-David et al. (US Patent Number 6,870,523), Hereinafter referenced as Ben.

As of claims 2 and 18, Itoh teaches the limitations of claim 1 above.

Atoh does not teach **wherein said the determined frame rate is 350 frames/sec.**

However, Ben teaches wherein said the determined frame rate is 350 frames/sec (see col.10 L54-65).

Therefore, it would have been obvious to an ordinary skill in the art at the time the invention have been made to combine Ito image processing system and method with the teaching on Ben's frame rate to refresh the frame, because this is an alternate way to update frames.

As of claims 10 and 26, claims 10 and 26 are rejected the same as claim 1.

Only claims 10 and 26 are method claims.

Response to Arguments

4. **Applicant's arguments with respect to claims 1, 8, 9, 16, 17, 24, 25 and 32 filed 08/28/09 have been fully considered but they are not persuasive.**

On page 8, applicant argues that Itoh fails to disclose the features of "display control means for controlling display to cause display means to display the moving image, by recognizing content to be displayed as computer graphics and then causing the display means to display the moving image at a determined frame rate of 350 or 360 frames/sec." The examiner respectfully disagrees. On paragraph [0053], Itoh teaches motion discriminating part 20 that provides display system control signal. Itoh teaches the of his invention can be applied to computer graphics on paragraph [0131].

Applicant's arguments with respect to claims 2, 10, 18, 26, have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2629

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to INSA SADIO whose telephone number is (571)270-5580. The examiner can normally be reached on MONDAY through FRIDAY 8am to 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amare Mengistu can be reached on 571-272-7674. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
